## ✔ About

Malachi's House of Hope is a 501(c)(3) nonprofit organization based in Brighton, Michigan, dedicated to supporting families of children diagnosed with Heterotaxy syndrome and other complex congenital heart conditions.

Founded by parents April and Chijioke (CJ) Nwabuiké, the organization was born from their personal journey navigating their son Malachi's rare and life-threatening diagnosis. Malachi's House of Hope provides compassionate, family-centered support from the point of in-utero diagnosis through long-term treatment, ensuring families never have to face their hardest days alone.

Mission:

To provide housing, emotional support, and critical resources to families navigating rare and complex pediatric medical diagnoses.

Tagline:

Because no family deserves to face their hardest days alone.

## ✔ Malachi's Story

Malachi was diagnosed before birth with Heterotaxy syndrome with polysplenia, a rare condition affecting the placement and function of vital organs, often involving complex congenital heart defects. His diagnosis thrust his family into a world of emergency travel, long hospital stays, and life-saving surgeries.

Through Malachi's resilience and their own lived experience, his parents recognized a profound gap in support for families facing similar journeys. Malachi's House of Hope was created to fill that gap — offering hope, dignity, and tangible support when families need it most.
